

# Montana TMDL Project Areas & 2014 TMDL Completion Schedule

- Approved TMDL document or watershed plan
- In-progress TMDLs (completion by 2014)
- Combination approved & in-progress TMDLs
- Additional TMDL priority areas (completion after 2014)
- Not included in 2014 schedule
- Tribal (not under state jurisdiction)

TMDLs are specific to a waterbody segment - pollutant combination. Some planning areas with completed TMDLs may still require TMDL development for additional waterbody - pollutant combinations. Contact the DEQ at 406-444-5317 or refer to the final TMDL documents at <http://deq.mt.gov/wqinfo/TMDL/finalReports.mcp.x> for additional details.

In addition to the watersheds shown on this map, some large rivers and their associated reservoir systems represent separate TMDL project areas. These include the Clark Fork River, the Missouri River, and the Yellowstone River. Pre-TMDL development support work is underway in the Yellowstone River and Missouri River, while the Clark Fork River has a combination of approved and in-progress TMDLs scheduled for completion in 2014.
