

# Wetland Stewardship Award Winner

## Tim Griffiths, NRCS Bozeman Area Biologist

Tim Griffiths, NRCS Bozeman Area Biologist.

### Accomplishments:

- Directly involved in restoring 51,000 feet of creek, and 807 acres of adjacent wetlands
- Completed 11 restoration projects in southwestern Montana involving NRCS conservation programs and other partners, and currently working on 4 new projects
- Worked with 2 school districts involving students in long-term monitoring of restored aquatic systems
- Streamlined NRCS process using technical service providers to expedite NRCS wetland projects
- Passion for wildlife, wildlife habitat, and people resulting in successful approach to working with landowners and partners

Sprigging willows to restore aquatic habitat in southwestern Montana.

Tim's enthusiasm is evident in his successful approach to working with both landowners and partners.

BEFORE

AFTER

AFTER

Restored 8,927 feet of Odell Creek and 69 acres of associated wetlands on the Longhorn Ranch in Madison County using NRCS Environmental Quality Incentive Program (EQIP).
