

INSTRUCTIONS FOR Form NOT - Notice of Termination

IMPORTANT: This form is used to notify the Department that a facility or site has achieved final stabilization and permit coverage under the Department's General Permit for Storm Water Discharges Associated with Construction Activity (MTR100000) should be terminated. The Notice of Termination (NOT) process is addressed in Part 1 of the permit. Final stabilization means the time at which all soil-disturbing activities at a site have been completed and a vegetative cover has been established with a density of at least 70% of the pre-disturbance levels, or equivalent permanent, physical erosion reduction methods have been employed. Storm Water Construction General Permit documents and related forms are available from the Storm Water Program at (406) 444-3080 or on the DEQ website at: <http://www.deq.mt.gov>

You must type or print legibly; forms that are not legible will be returned. Do not leave blank spaces. You must maintain a copy of the completed form for your records.

SPECIFIC ITEM INSTRUCTIONS

Section A – Site or Facility Information:

The site name means the land or property where the facility or activity is physically located or conducted, including other land used in connection with the facility or activity. This information must be identical to the information provided in the facility's permit, authorization or confirmation of the receipt letter. The permit number is the 9-digit code beginning with MTR1. The permit number and site name are used to identify the site and must be identical to the information provided in the facility's permit, authorization or letter of confirmation.

Section B –Applicant (Owner/Operator) Information:

Give the name, as it is legally referred to, of the person, business, public organization, or other entity to whom the permit authorization was issued or was subsequently transferred using a permit transfer notification (PTN) form. A Notice of Termination may only be submitted by the current owner or operator. The operator is the legal entity which controls the facility's operation.
